Professional Summary

Senior Frontend & Mobile Engineer with 5+ years of experience building and maintaining production-grade web and cross-platform mobile applications using React, React Native, TypeScript, JavaScript, Next.js, and Expo. Experienced delivering customer-facing products at scale, including applications supporting 1M+ customers and mobile applications supporting 10,000+ daily user operations.

Strong expertise in frontend architecture, responsive UI development, reusable component systems, Figma-to-code implementation, REST API integration, authentication, state management, automated testing, performance optimisation, and production troubleshooting. Experienced across the software development lifecycle, collaborating with product managers, designers, backend engineers, QA teams, and stakeholders to deliver scalable, maintainable, and user-focused products across web, iOS, and Android.

Core Competencies & Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Expo, Tailwind CSS, Sass/SCSS

State & Data: Redux, Redux Toolkit, Recoil, Context API, React Hooks, React Query, TanStack Query

Backend & APIs: Node.js, Express.js, REST APIs, RESTful Services, JSON, Authentication, Authorization

Testing: Jest, React Testing Library, Unit Testing, Integration Testing

UI & Architecture: Responsive Design, Mobile-First Development, Figma-to-Code, Reusable Components, Design Systems, Accessibility, WCAG, Cross-Browser Compatibility

Performance: SSR, Code Splitting, Lazy Loading, Rendering Optimization, State Optimization, Performance Troubleshooting

Engineering: Git, GitHub, Azure DevOps, CI/CD, Agile/Scrum, Code Reviews, Debugging, Production Support

Platforms: iOS, Android, Apple App Store, Google Play Store

Databases: MongoDB, MySQL

Work Experience

MTN NIGERIA – Senior Software Developer | Feb 2025 – July 2026

- Built and maintained production React and React Native applications supporting **1M+ customers** across web and mobile platforms.
- Developed responsive, production-ready interfaces using React, React Native, TypeScript, JavaScript, React Hooks, HTML5, and modern CSS.
- Translated product requirements and Figma designs into accessible, responsive, and user-focused digital experiences.

- Developed reusable UI components and shared frontend patterns that improved consistency and maintainability across products.
- Integrated REST APIs, authentication workflows, analytics, and backend services across critical customer journeys.
- Improved application performance through lazy loading, rendering optimisation, efficient state management, and component-level improvements.
- Participated in code reviews, debugging, release planning, production support, and technical decision-making.
- Collaborated with product, design, QA, and backend engineering teams across multiple concurrent workstreams.

ABINBEV – Senior Frontend Engineer | Jan 2024 – Dec 2025

- Developed scalable web applications using React, Next.js, TypeScript, and modern frontend architecture.
- Translated product requirements and design specifications into responsive, maintainable, production-ready interfaces.
- Built customer-facing dashboards and digital experiences with emphasis on usability, accessibility, visual accuracy, and responsive behaviour.
- Developed reusable frontend components and patterns to improve consistency and development efficiency.
- Improved application performance using Server-Side Rendering (SSR), code splitting, caching strategies, and rendering optimisation.
- Integrated REST APIs and authentication services to support dynamic application workflows.
- Participated in architecture discussions, code reviews, testing, release planning, and technical troubleshooting.

JUSTRITE - Lead Mobile Developer | May 2025 – Jun 2026

- Led development and continuous improvement of production-grade React Native and Expo applications, with responsibility for scalability, performance, maintainability, and release quality.
- Spearheaded modernisation of the Justrite mobile application supporting 10,000+ daily user operations.
- Designed and implemented RESTful API integrations, optimising data retrieval and application responsiveness across critical user workflows.
- Strengthened authentication and authorisation flows and resolved production performance bottlenecks to improve application stability.
- Implemented unit and integration testing with Jest, contributing to a 60% reduction in production errors.
- Collaborated with product managers, designers, backend engineers, and stakeholders on technical decisions, code reviews, debugging, and releases.

SMALLCLOSEDWORLD – Lead Frontend Developer — Web & Mobile | Sep 2024 – Apr 2025

- Led development of scalable React Native applications across multiple client and product requirements.
- Built reusable UI components and translated UI/UX designs into responsive, intuitive, and visually consistent experiences.
- Integrated RESTful APIs and backend services supporting core application workflows and data flows.
- Collaborated with designers, developers, and stakeholders to define requirements, resolve technical issues, and deliver features within deadlines.
- Contributed to iOS and Android application releases and supported technical decision-making across concurrent projects.

SATORI MENTAL HEALTH - Frontend Developer | Jul 2022 – Feb 2024

- Built responsive and accessible React applications from Figma designs using HTML5, CSS3, JavaScript, Redux, and React Hooks.
- Developed reusable UI components and frontend patterns to improve maintainability, consistency, and development velocity.
- Improved rendering efficiency by identifying and reducing unnecessary component re-renders.
- Collaborated with product, design, backend, and QA teams to deliver and troubleshoot production features.

TECHBEAVER - React Native Developer | Jan 2022 – Oct 2024

- Developed and maintained production React Native applications across multiple client projects from development through release.
- Integrated RESTful APIs and built reusable mobile UI components in collaboration with UI/UX designers.
- Diagnosed application issues and implemented fixes to improve stability, reliability, and user experience.
- Contributed to releases across the Apple App Store and Google Play Store.

SUBSHARE INC. - Frontend Developer — Web & Mobile | Aug 2019 – Jul 2022

- Developed interactive React and React Native applications based on product and client requirements.
- Built reusable frontend components and responsive interfaces across desktop, tablet, and mobile platforms.
- Migrated legacy jQuery interfaces to React architecture, improving maintainability and development velocity.
- Integrated REST APIs and backend services while collaborating with designers, backend engineers, and project stakeholders.

Projects

MTN

Production customer-facing mobile application built with React Native, supporting a large telecommunications user base.

Justrite Mobile Application

Production e-commerce mobile application supporting customer shopping and commerce workflows across iOS and Android.

Zona

A Miami cross-platform nightlife and entertainment mobile application focused on discovering and engaging with entertainment experiences.

Education

Covenant University, Ota, Ogun State

B.Sc. Electrical and Electronics Engineering

Alx Africa

Software Engineering, 2024

Certifications and Training

The Complete 2023 Web Development Bootcamp

Udemy

Training Certificate in Frontend Web Development

Zidio Development

Date of Completion: April, 2024
